

1. How do you imagine
using what you learned
today

* 2020 Overview to

attract new grad students

* Join committees in the future

* Networking

2. In what ways can this lead
to your engagement in UC Merced?

* Connecting to others

* Invites involvement

* Open committees

* Amplify your networking

3.A. I want to be involved,
but how do I find the time?

B. This is the only place I've
learned about committees. Is
there a list of them somewhere,
and a schedule of when they
meet? How do we find out about
them?

#3

- Resources for students + staff (upload + Gma)
- other networking opps to share
- more participations

#1

- mindful of history of where things initiated (Fiat Lux etc)
- headspace app - research
- improving work life
- creating new things
- be a part of it

#2

- stay excited
- inform colleagues & external
- can answer questions (easily)
- making connections networking

1. Be able to inform outside community about the happenings on-campus (and off-campus)

• Updates (like the videos) keeps us excited

• Knowing about committees & the website that lists all of them - possibilities to be involved

- Getting involved in committees

- Getting involved in the community - volunteering (on & off campus)

3. What leaves you wondering... Yes, but...?

* "How" to do things here

* We have an opportunity to educate

* Need to "show case" the value of UC

#1

- Connecting MSOs to diversity resources
- Puts our own roles into the larger campus context
- Getting involved in committees

#2

- Will be involved in SAW; connecting w/ people leads to engagement
- Involvement w/ other groups on campus ties everything together (e.g. faculty or UG connect to Grad role)
- Participation in committees outside your area expands your network

#3

- Plans for electric vehicles
- What does this expansion mean for campus and community?
