

LiveHealth Online

Have a virtual visit anytime, anywhere

Sometimes, you just need to check with a doctor to get quick care for a common health issue. Other times, you may feel anxious or have trouble coping on your own and need support. It helps to have options for care when you aren't feeling your best. Now, you can connect to care with LiveHealth Online. Have a live video visit with a board-certified doctor, psychiatrist, or licensed therapist using your smartphone, tablet, or computer with a camera.

Use LiveHealth Online to:

See a board-certified doctor in minutes with no appointment. Doctors are available 24/7 to assess your condition and send a prescription to your local pharmacy, if needed.¹ When your primary doctor isn't available, use LiveHealth Online for symptoms such as pink eye, a cold, the flu, a fever, allergies, a sinus infection, or another common health condition.

Have a visit with a board-certified psychiatrist within two weeks.² You can see a psychiatrist using LiveHealth Online if you're 18 or older to help manage your medications.³ Keep in mind they can't prescribe controlled substances or provide talk therapy. If you need to talk to someone, you can also make an appointment with a licensed therapist using LiveHealth Online.

Make an appointment with a licensed therapist in four days or less.² Get help for issues such as anxiety, depression, grief, and panic attacks, through a private video visit with a therapist when it fits your schedule — evenings and weekend appointments are available, too.

How does LiveHealth Online work?

When you need to see a doctor, simply register by logging in at [anthem.com/ca](https://www.anthem.com/ca) and click **LiveHealth Online** from your homepage to sign up, or log in to the LiveHealth Online app. Select the state you're located in and answer a few questions. Creating an account allows you to securely store your personal and health information. Plus, you can connect with doctors in the future, share your health history, and schedule online visits at times that fit your schedule. Once connected, you can talk and interact with the doctor as if you were in a private exam room.

Once your visit is over, LiveHealth Online can send information about your visit to your regular doctor, with your consent.

Who is LiveHealth Online available to?

LiveHealth Online is available to University of California employees, retirees, and their families who are members enrolled in a UC PPO plan, including those with Medicare.

What do I need to access LiveHealth Online?

You will need high-speed internet access and a webcam or built-in camera with audio capability.

Can I get online care if I'm traveling or in another state?

Yes, just make sure to select the state you're in under *My Location* and you'll only see providers licensed to treat you in that state. Remember to change your state back when you return home.

How do I pay for a LiveHealth Online visit?

LiveHealth Online accepts Visa, MasterCard, and Discover as payment. You may also use your flexible spending account (FSA) or health savings account (HSA) debit card. Keep in mind that prescriptions aren't included in the cost of your doctor visit.

How do I access LiveHealth Online from a computer?

You can access LiveHealth Online using a computer with a webcam. To get started, log in at [anthem.com/ca](https://www.anthem.com/ca) and click **LiveHealth Online** from your homepage to sign up, or log in to the LiveHealth Online app.

How do I access LiveHealth Online on a mobile device?

You can access LiveHealth Online from your Android or iOS mobile device using the native app. Visit Google Play™ or the App Store® to locate the app for your service. Download the app, open it, and follow the instructions to get started. To support two-way video visits, your device must have a front-facing camera.

Do you have questions?
